

## Alejandro de la Borbolla

Mexico City, Mexico

*Partner, Member Firm: Serrano Galicia Abogados*

Mr. De la Borbolla co-heads Galicia's infrastructure practice. He focuses on infrastructure and project finance transactions, where his expertise extends to virtually all areas of infrastructure development, including roads, bridges and tunnels, public transport systems, airports, ports, water treatment plants, water supply systems, prisons, hospitals, and other essential facilities for the development of economic activity.

Mr. De la Borbolla has advised the entire spectrum of market participants, from federal and state government entities (including the agencies that promote these projects), to developers, construction companies, investors, as well as financial institutions. His practice covers the development and financing of long-term infrastructure projects under different legal schemes, including concessions, public works, public-private partnerships, and other legal and contractual arrangements commonly used for these purposes.

Alejandro has been involved in several of Mexico's most relevant social infrastructure projects, such as Terminal 2 of the Airport of Mexico City, the 250 km LPG pipeline that runs from Tuxpan to Atotonilco, the Monterrey-Salttillo Highway, the Perote-Xalapa Highway, the Libramiento de Irapuato Highway, the Río de los Remedios-Venta de Carpio (Gran Canal) highway concession and the services agreement of the toll road Tapachula-Ciudad Guzmán in Chiapas, and the financing for the maintenance and rehabilitation of the Guadalajara-Colima toll road.

Alejandro plays a key role in Galicia's Project Finance and Infrastructure practice groups, which consistently top the rankings in leading directories such as *Chambers and Partners*, *IFLR1000* and *The Legal 500*.
