

## Radhi Shah

*Foreign Attorney – Los Angeles*

Radhi Shah focuses on commercial litigation, particularly patent litigation, as well as patent prosecution.

Radhi developed her legal acumen at various international law firms, often representing clients in computer technologies and health care sector. She has worked with a wide range of technologies, including cloud computing, machine intelligence, embedded systems, biotechnology, life science, and medical devices. As an Indian Patent Attorney, Ms. Shah has worked closely with wide-ranging international clients, forging connections between U.S. and foreign entities. She likes to get “under the hood” to gain a deep understanding of her clients’ inventions, allowing her to develop comprehensive patent strategies.
